

Based in Antalya / Turkey, CANTEK is food storage and processing specialist for 29 years, in 65+ countries, with 13.000+ projects completed successfully. We produce with high technology and quality all the equipments and realize turnkey cold storage, slaughterhouse / meat processing (red meat, poultry, fish) and plant factory projects worldwide.

We are offering complete solutions including project developing, production, facility installation, service, warranty, remote controlling and managing systems. In addition, we provide saving in energy consumption up to 71%.

We think that it is a right for all humanity to reach healthy, economic and continuous food. So, our corporate philosophy is to develop innovative solutions to provide food security.
